

GO-2-CHANNEL GAS PUMP

Sampling- Processing- Analysis

GO-2 CHANNEL GAS PUMP

**2-channel diaphragm pump with electromagnetic drive
for continuous operation**

Flexible by two separate gas paths. The pump is maintenance-, noise- and vibration-low.

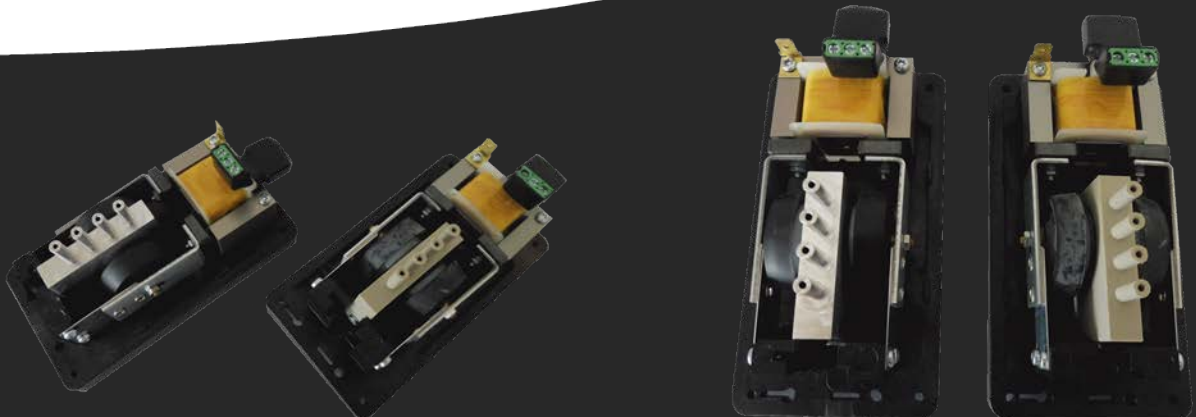

The pumphead is made of plastic or aluminum.

The membranes of high quality material are the only wear parts and easy to change.

PERFORMANCE PROFILE

Power supply	230 V / 50 Hz
Power consumption	5 watt
Output pressureless	approx. 150 l/h each channel
Height	65 mm
Breadth	73 mm
Depth	145 mm
